Subject: Signage Requirements for VTA's

Date: 20.04.2023

Under regulation 13.19 of Health and Safety at Work (Hazardous Substances) Regulations 2017, WorkSafe can specify a period of time for which a PCBU with management or control of work involving a vertebrate toxic agent being applied or laid that compliant signage is displayed.

Acting under delegated authority, and on behalf of WorkSafe, the following timeframes (signs must stay in place) are set. (see below).

Active ingredient of the Vertebrate toxic agent	Substance name	Period in months
3-chloro-p-toluidine hydrochloride. (DRC1339)	HSR001611-Powder containing 970-980g/kg 3-chloro-p-toluidine hydrochloride.	1
Brodifacoum	HSR001612- Bait containing 0.02g/kg Brodifacoum HSR100813- Rodenthor Black Bait HSR100814- Rodenthor Soft Bait HSR001594- Bait containing 0.05 g/kg Brodifacoum	12
Bromadiolone	HSR-001603-Bait containing 0.05g/kg – 0.1 g/kg bromadiolone HSR007908-Liquid bait containing bromadiolone at 0.06g/L HSR007909-Liquid Bromatrol	12
Cholecalciferol	HSR001598-Bait containing 8g/kg cholecalciferol (substance A) HSR007749-Bait containing 8g/kg cholecalciferol (substance B) HSR007891- Pestoff DECAL Possum Bait HSR101042- Pestoff Green Blocks HSR100456- LDC Feracol Paste	4
Coumatetralyl	HSR001602- Powder containing 7.4g/kg coumatetralyl HSR001605- Bait containing 0.375-0.5g/kg coumatetralyl	8
Diphacinone	HSR001595- Paste containing 0.3g/kg diphacinone HSR001596- Bait containing 0.05g/kg diphacinone	8
Difenacoum	HSR101550- Block bait and soft bait containing 0.05 g/kg difenacoum	12
Difethialone	HSR100839- Generation Soft Bait Single-Feed Rodenticide HSR100840- Generation Block Single Feed Rodenticide HSR100841- Generation Blue Mx block Single-Feed Rodenticide	12
Flocoumafen	HSR001601- Bait containing 0.05g/kg flocoumafen	12
Microencapsulated zinc phosphide	HSR100577- MZP Paste containing 15g/kg zinc phosphide (HSR009013)	6
Pindone	HSR101184- PLC-2 HSR001597- Soluble concentrate containing 34g/litre pindone as the sodium salt HSR001604- Bait containing 0.25-0.5g/kg pindone HSR100544-Pindone Liquid concentrate	8
Sodium cyanide	HSR001606- Paste containing 500-600g/kg sodium cyanide	2
Sodium nitrate	HSR100893- Bait containing 100g/kg sodium nitrate	4
Yellow phosphorous	HSR001609- Paste containing 9.5-10g/kg yellow phosphorus HSR001610- Paste containing 4.5-5g/kg yellow phosphorus	1
Potassium cyanide	HSR001607- Encapsulated paste containing 500g/kg potassium cyanide HSR001608- Encapsulated pellet containing 800g/kg potassium cyanide HSR001673- Feratox 475g/kg HSR100752- Feratox pellet in Ferafeed Paste (Formulation A-F) HSR007628- Bait containing 0.55%-1.84% encapsulated potassium cyanide	4
